

How much for a New Floor?

Mr Coleman has just moved into his new home. He doesn't like the old carpets, so he decides to put laminate flooring throughout the whole ground floor.

The laminate flooring he has chosen comes in packs which each cover 2 m².

Each room also needs a trim around the perimeter of the room.

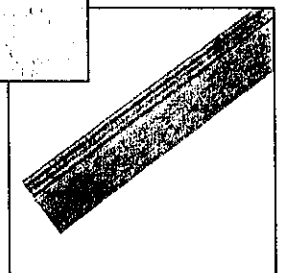

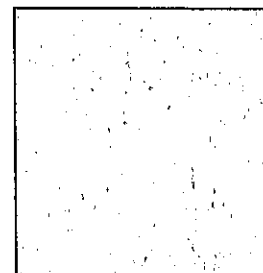

The trim comes in packs which have a total length of 4m.

Help Mr Coleman calculate the floor area of each room and the trim needed for every room, then work out how much it will cost.

Beech Wood	Floor area (m ²)	Trim (m)
Hall		
Toilet		
Total		

Oak Wood	Floor area (m ²)	Trim (m)
Living Room		
Kitchen		
Office		
Conservatory		
Total		

The hall and toilet are to have beech flooring and the other rooms will have oak.

	Number of Packs needed	Price per pack	Total Cost
Beech wood Flooring		£14.99	
Beech wood Trim		£4.99	
Oak wood Flooring		£22.09	
Oak wood Trim		£8.99	
		Total Cost
